

Pic 1

► iOS System

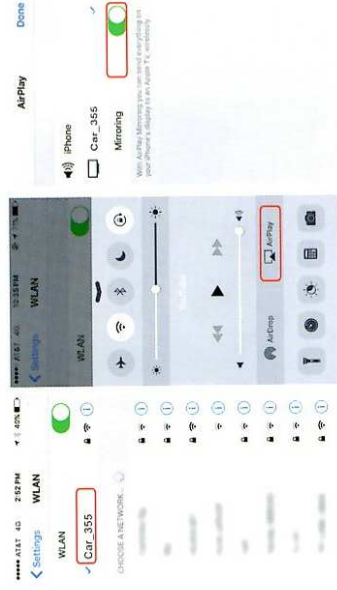

IOS phone list(with Airplay)

iPhone: 4S/5/5S/6/6 Plus/6S/6S Plus/SE.....

iPad: 2/3/4/air min1/1/2/4/Air2/Pro.....

Taking IOS 9 for example to instruct you how IOS connect(Airplay mirroring). Show as pictures below.

- Setting -- WIFI --On -- Select "Machine"
- Call out the Control Center and tap Airplay
- Phone screen can be displayed on the car video player after successful mirror.

► Android System

Taking Nexus4 Android 4.2 for example to show you how Android connect to device

- Setting -- Display -- Wireless display -- click on Machine WIFI
- Waiting for several seconds with patience, then phone screen can be found in the car video player screen. Shows as pictures below

Note: It is no need to connect device WIFI if you use WLAN on Android phone.
